Bidders Conference

February 20, 1986

C.M.C.  
Attn: Jerry Knocks  
2000 Dombey Road  
Portage, IN 46368

Dear Mr. Knocks:

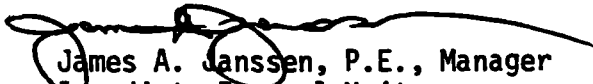

An on-site briefing will be held at 10:00 A.M., Thursday, February 27, 1986 at Refinery Products, located at 4256 Wesley Terrace in Schiller Park, Illinois.

This facility is a closed reprocessor of waste oil, solvents and mineral spirits. Located on-site are storage tanks, drummed waste, diked areas containing impounded liquid waste and miscellaneous debris. Be advised that State funds may not be used for the clean-up of this site as the Agency is negotiating clean-up with responsible parties. The Agency will be prepared to use State funds for this clean-up if the negotiations fail to progress expeditiously.

Be equipped to use Level C protective gear for this site visit. Clean-up contractors not equipped with Level C protective gear will not be allowed to participate in the briefing or bid on the clean-up of this site.

Should you have any questions concerning this notice, contact Steve Colantino at the number above.

Sincerely,

  
James A. Janssen, P.E., Manager  
Immediate Removal Unit  
Remedial Project Management Section  
Division of Land Pollution Control
